

# SUPERHEAT™

## SMARTREPORTS

# PROCESS HIGHLIGHT

**MINIMIZE RISKS**  
Digital weld tracking reduces physical paper trail interactions.

**IMPROVE QUALITY**  
Centralized document control hub for lifetime data retrieval.

**REDUCE COSTS**  
Up to 40% labor cost savings.

**SAVE TIME**  
Self-services platform optimizes chart delivery. No more waiting on contractors.

**Superheat SmartReports™** is a comprehensive overview of all critical heat treatment records available to your representatives for download within **Superheat SmartView™** or digitally distributed based on your needs.

- 1 Brinell Hardness Report:** To confirm your specifications have been met upon completion of the heat treatment process
- 2 Secure Data Report:** Offers accurate and traceable time and temperature information relating to heat treatment cycles
- 3 Certificate of Calibration:** Confirms data point readings are validated to precise specifications and are traceable to nationally recognized standards

## /// BETTER SAFER FASTER™
